Angular, React, GraphQL, Flask

Education

Concordia University – *B. Software Engineering*   September 2018 – Present

- 3.82 / 4.30 GPA
- Dean's List
- Co-op student
- Graduation in May 2022

Jean-de-Brébeuf College – *D.E.C. Sciences, Letters and Arts*   September 2016 – May 2018

Experience

Desjardins Group – *Programmer*   May 2020 – Present

- Reduced deployment time from 10 minutes to 5 minutes by rebuilding our pipelines.
- Migrated our repository from TFS to Azure DevOps.
- Built a C# application to automatically migrate our backlog from TFS to Jira Server.
- Modernized the front-end of our .NET application by migrating to new technologies.

Diff Agency – *Web Developer*   August 2019 – December 2019

- Developed many pages and features for the Shopify websites of different clients.
- Ensured websites were compliant to modern web accessibility standards.
- Efficiently worked in different teams and on many projects.

Projects

EmotionLive – *Angular, Typescript, Firebase*

- Collaborated on an application meant to help children with disabilities recognize and learn emotions by playing small web games.
- Won the popularity prize against 120 other teams during Concordia's 2020 ConUHacks.

ror2-editor – *React, Typescript*

- Built a web app to allow people to modify their savefiles for the video game Risk of Rain 2.

ShutterFeed – *Angular, Typescript, Firebase*

- Developed an image sharing social platform.
- 3 month group project made following Agile development practices.

Activity & Rewards
